162 NASSAU STREIT, NEW YORK, SATURDAY, NOV. 14, 1806.

SOWING WIND.

approving opinion of a decision of the Supreme Court is tion!" to continue an Anarchist; every citizen who thinks that | As it is inconceivable that American citizens will con- I was wondering what to do, I saw a fagovernment by injunction is an innovation dangerous to sent to perpetual bondage, or that they will permit the miliar face. I couldn't remember the liberty, is to remain an advocate of free riot.

utter it don't believe it, but they expect to make others taxation must be more universally studied to the end that Summer," suggested the girl in the blue their votes through false pretence for the conservation of clamor of those who find profit in leaving it unsolved. abuses and the protection of the privileges of the preda-

The scheme has worked well this year, but to persist in it as a permanent policy is short-sighted. The six million citizens who voted for Bryan, bimetallism and democratic government are quite as intelligent as the other millions who voted for McKinley, the single gold standard and government by the allied financial interests of the country. In the matter of patriotism, of regard for the national honor, we will back the average Democratic voter against the average trust millionaire any day. To deny intelligence and patriotism to nearly half the citizens of the United States, as the gold press did before the election, and as it is doing now when the election is past, will not advantage For the great mass of people go to the exhibition not to see the party in whose behalf this preposterous insult is offered. The common sense of all men is forced into revoit, and in those who are the subjects of the insult a resentment is inspired which intensifies their loyalty to their political convictions. To inflame anger and deepen rancor in our politics appears to be the settled purpose of the Republican party.

No one who knows the people of the United States doubts that the masses vote according to their view of what is right. The average citizen who supported McKinley did so in the sincere belief that it would be better for the Republic to have him instead of Bryan in the White House. But nobody believes that the millionaires-the Morgans, the Pullmans, the Huntingtons and the Carnegles-who rushed as one man to the aid of McKinley, were animated by unselfish motives. Without the aid of the millionaires and the trusts the Republican candidate could not have been elected. That is not to be denied. Neither is it to be denied that the millionaires and trusts regard the victory as their own, nor that they will be controllingly influential in shaping the policy of the new Administration. That these men in fighting for the maintenance of the gold standard and for the defeat of Bryan, who had financial stake in the contest, is as clear as that they have been made happy by the result. It is easy to understand that men should think only of their own pockets when they go into politics. If they are cynically frank about it such men add hypocrisy to sordid selfishness and proclaim that their devotion to their pockets is in reality devotion to their country's welfare and the nation's honor they rouse the impatient scorn of honest people. And when these 'to oppose them for the sake pocket patriot minco sin reated less holorable,

less patriotic than themselves, they make a demand on the patience of honest men that is a trifle too heavy. There are few citizens who care to listen to lectures on morals and patriotism from a Carnegie, a Huntington or a Pullman. Yet it is persons of this class, who stand for nothing but the nerve to deny to the Democratic masses of the United States the possession of patriotism and common honesty.

If the gold standard were good for the public the millionaires and trusts would not be its foremost champions, vince the thoughtful and impartial its advocates would contrary to their wishes. But the fact remains that the tor's face when I gave it to him, and he not need to deal exclusively in insults to their opponents. The gold standard is a fraud. It taxes the many who have little for the benefit of the few who have much. That is cessfully to deny it, what nation can? why those who profit by it are impelled to employ cries land gives the President "a position in the New World settle a bet," said the family man to the X-my answered in due time by a better instructed people.

I was glad, therefore, that she left the If she had brought both the wink and the

bun, I tremble to think of what might have happened in dudedom. CHOLLY KNICKERBOCKER, Amplification Necessary.

[Indianapolis ournal.] As Mr. Wickerie came also the dining room be was saying: "Tell you, old man, she was just a dandy! Every line perfect, and a better knee action I never saw in my life." Of whom are you talking?" asked Mrs.

Wickwire. Of whom? I was talking about Johnson's Oh, I thought it was one of those hicycle
